

Structured Interview Questions

Pre-Testing

1. What is your age?
2. What is your current academic year or highest level of education completed?
3. What is your field of study?
4. How would you describe your socio-economic background?
5. Have you had any prior experience with virtual or augmented reality technologies?
6. How confident are you in your current academic programme? (Rate 1–10)
7. Do you feel your current academic programme aligns with your long-term career goals?
8. Have you previously taken any form of career aptitude test? If yes, how useful was it? (Rate 1–10)
9. How comfortable are you with using new technologies like virtual or augmented reality? (Rate 1–10)
10. Before today, did you believe immersive technologies (such as virtual reality) could be useful for education or career planning? Why or why not?
11. How confident are you that traditional aptitude tests (e.g. SAT-style) reflect your actual skills and interests? (Rate 1–10)

Post-Testing

1. After using CareerQuestXR, how would you rate your overall experience with the system? (Rate 1–10)
2. Did the virtual reality environment help you explore new or unexpected career paths? Please describe.
3. How comfortable did you feel navigating the virtual environment for career exploration? (Rate 1–10)
4. How did the VR-based test compare to the traditional SAT-style test you completed earlier? (e.g. engagement, difficulty, stress)
5. Did you experience any anxiety or discomfort while using the VR system (including biometric self-reporting)? If yes, please describe.
6. Do you feel CareerQuestXR provided accurate insights or recommendations that align with your skills, interests, Big Five profile and RIASEC code? (Rate 1–10)
7. What aspects of the CareerQuestXR system did you find most beneficial for career guidance?

8. Were there any challenges or limitations you encountered while using the system?
 9. Would you recommend CareerQuestXR to other students as a career guidance tool? Why or why not?
 10. Did the personalised explanations (Big Five + RIASEC) help you understand why certain careers were recommended?
-

Semi-Structured Interview Questions

Pre-Testing

1. Can you tell me more about your current academic path and how you chose it?
2. Have you ever felt uncertain or reconsidered your choice of study? What led to those thoughts?
3. What was your experience with previous aptitude or career tests (paper or online)?
4. How confident are you that those results reflected your real strengths and interests?
5. How do you think having access to immersive tools like CareerQuestXR earlier could have influenced your decisions?
6. What are your general thoughts on the role of technology—especially immersive technologies—in education and career guidance?
7. What features or tools would you expect to see in a VR-based career testing system?

Post-Testing

1. Can you walk me through your experience with CareerQuestXR, from start to finish?
 2. How did the level of immersion in the VR environment affect your engagement compared to the Google Form test?
 3. Did the career recommendations and explanations (Big Five + RIASEC) align with your own self-perception? Why or why not?
 4. Did you experience any stress or discomfort during the VR tasks? If so, do you think it was due to the technology, the process, or something else?
 5. How useful do you think CareerQuestXR could be in helping students make more informed career decisions? Could it impact your own academic or career path?
 6. What improvements or additional features would you suggest for CareerQuestXR to enhance its effectiveness?
-

Unstructured Interview Prompts

Pre-Testing

- Tell me about your academic journey so far. What led you to your current field of study?
- Have there been specific challenges, uncertainties, or influences that shaped your career choices?
- What kind of career guidance have you received in the past, and was it helpful?
- What do you think about using immersive technologies like VR for career guidance?
- If you had access to a VR-based system, what would you want it to show or do for you?

Post-Testing

- How did CareerQuestXR influence your thoughts about potential career paths?
 - Did you feel more or less engaged compared to traditional methods? Why?
 - What was the most valuable part of using CareerQuestXR, and what could be improved?
 - How comfortable were you in the VR environment? Did you experience any anxiety or discomfort?
 - Do you think this technology could help students make more confident decisions about their academic and career paths? Why or why not?
 - What additional features or tools would enhance the CareerQuestXR experience for future users?
-
